Please use this chance to tell us what you think about mathematics at University so far, what you like about your courses, make constructive suggestions for improvements and to add any general comments. We want to know what you think.

**Lectures** : (e.g. are you able to take good lecture notes, has the lecturer assumed preliminary knowledge that you don't have ...)

**Recommended texts** : (which books have you used and were they useful? ...)

**Teaching rooms** : (e.g. comments on the ventilation, temp, noise, lighting, boards, seating etc. Please include the room number(s) with your comments.)

**Overall impressions** :
