

Table A: Probabilities for the standard normal distribution

Table entry for z is the probability lying to the left of z for a $N(0, 1)$ distribution.

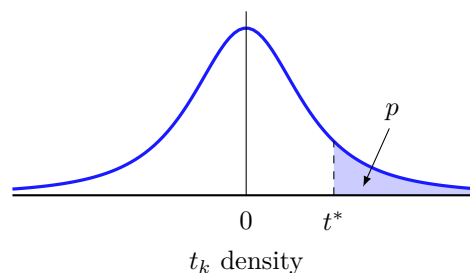

$$\Phi(z) = P[Z < z]$$

Table B: Probabilities for the t -distribution

Table entry for p and C is the critical value t^* with probability p lying to its right and probability C lying between $-t^*$ and t^* for a t -distribution with k degrees of freedom.
